**QLE is your local Climate Fieldview dealer. Contact the office or your dealer for more information, a demonstration, or pricing.**

With heavy hearts the Quaker Lane family shares the loss of a longtime friend and co-worker Gene Siegman. Gene was a hardworking and loyal member of QLE who retired 1 year ago from full-time service with us. However; he did continue to stop by the shop and make sure we were doing everything to his standards. Gene did work part time with us through the end of harvest this year. Gene's friendship is what we will miss the most. His always upbeat attitude and influence will always be with us. He watched our kids grow up and treated them as his own. Gene always had a Pepsi or Red Hot candies for our customers. Our customers will miss him too. Gene was a Veteran and was currently serving as Magnolia Legion Commander. Thanks for your service "Big Guy". Gene truly made us better people and also the community a better place.

**Rest in Peace our friend, will you will be missed!**

Winter blues..... Although our past winters have not been too bad, we all still get that feeling of hibernation in the winter. From January to April the weather around Illinois is never a constant and we always have a resolution for a better being. A few things that we can do is eat healthy and keep up on our exercise. Think of the food pyramid, are you getting your grains, veggies, meat and fruit in your meals each day. **JUST KEEP MOVING.....** Whatever you do, whether it be, walking, strength training, running or cardio it will make you feel better and improve your health. Always build your workout and start out slow. Also, keep your workouts interesting and change up what you do so you will use different muscles. Lastly, chart your progress and keep a journal so you can see results! **JUST KEEP MOVING.....**

## SCHOLARSHIPS

Every year, agriculture serves up nearly 60,000 new jobs. And every year, almost half of them go unfilled. It's up to farming communities to remind students that a career in ag is beneficial to both their own personal success stories and our growing population. The Monsanto Fund, Grow Ag Leaders asks farmers to endorse high school seniors or college students for a chance to win a \$1,500 scholarship to support their higher education studies in ag-related fields.

Visit the FFA site today to apply.

<https://www.ffa.org/participate/scholarships>

Marquis Energy LLC announces a new scholarship for local college-bound students. There will be five \$2,500 scholarships awarded to incoming and current college students enrolled at a university, junior college or technical school for the 2018-2019 school year. This is a special opportunity for those living in a 90-mile radius from the Marquis facility in Hennepin.

"We want to help our local youth succeed in achieving their lifelong dreams," says Mark Marquis, CEO of Marquis Energy. "This reward will cut down on the expenses of college and open up doors for more students."

Marquis is accepting applications until February 16. If you or someone you know may be interested, please visit <http://marquisenenergy.com/scholarship-application/> for more information and to submit your application.
